

ANALYSIS OF 8 CRITERIA IMPACT

		HOW DOES...							
		Protection, safety and security, social cohesion	Adequate standard of living	Access to job creation/economic opportunities	Housing, land and property	Access to effective remedies and justice	Participation in public affairs	Access to documentation	Family reunification
IMPACT ON...	Protection, safety and security and Social cohesion		People may have to travel long distances to access services, exposing themselves to protection risk. \$Negative coping behaviours may be adapted in times of food shortage, such as survival sex.	Children may be exposed to exploitation and abuse in the workplace. \$People might engage in economic activity that puts them at risk e.g. cultivating in an area where there are UXOs	Forced eviction can expose evictees to numerous protection risks			People without documents may be more exposed to violence, abuse and exploitation (e.g being detained at checkpoints, or being asked to pay bribes).	UASC and vulnerable separated adults will likely be exposed to protection risks if they are not reunified with their families
	Adequate standard of living	Security concerns and restrictions on freedom of movement can affect access to services and food		Children's engaged in employment or economic activity may be a reason for dropping out/not attending school. \$Inability to earn money might mean services are unaffordable. \$Inability to earn money will negatively impact on food consumption. \$Inability to earn money affects people's ability to have an adequate standard of housing.	Forced eviction can impact on people's ability to access food/services	Compensation/restitution for human rights abuses can assist in raising standard of living (housing, food etc)		Those without documents may not be able to access services, particularly education \$Those without documentation may face problems accessing food distributions or cash transfers	
	Access to job creation/economic opportunities	Security concerns and restriction on freedom of movement can hinder employment opportunities and economic activity	Access to education can enable subsequent access to employment or economic activity		Those without secure tenure may be unable to cultivate the land that they occupy \$those without secure tenure may be unable to obtain credit/loans		Low level of participation in decision-making, and/or ineligibility to vote can potentially have adverse impacts on all other criteria	Refugees may have to obtain work permits
