

ReDSS Core elements to inform Solutions planning and programming

Leaving no one behind: a commitment to address forced displacement

1. Creating durable solutions requires a **multi- stakeholder and sectoral, rights and needs based programming approach**
2. The process must be viewed as a **collective action rather than mandate driven** based on an inclusive, participatory and consensus building approach
3. **National, regional and local authorities have the primary responsibility** and need to be supported to to play their leadership and coordinating role
4. Developing **area based solutions approaches** is paramount to ensure integrated and comprehensive programming for host and displaced populations
5. **Community engagement** is critical to inform (re)integration analysis and programming to make solutions lasting, locally relevant and supportive of **social cohesion** and to **adopt a 'displacement affected communities'** approach- inclusive of refugees, returnees, IDPs and host communities
6. **Gender/age/diversity**: Interventions should take into account the gender, age and diversity at play and give special attention to women and youth
7. **Displacement is a development issue with humanitarian components** so it is essential to ensure complementarities and synergies between humanitarian, development, peace and state building programming to inform **collective outcomes**
